“Leadership to me is simply **common sense**, but it is not always **common practice**.”

Leadership Definition

“Whenever you have influence over another individual, you are in fact leading them, whether it is as a parent, colleague, partner or boss...”

The difference between Management and Leadership

Outstanding Managers drive individuals to perform at the highest level they are capable of, which is very much about control.

Outstanding Leaders inspire individuals to do it for themselves, which is more about freedom.

The mark of outstanding leadership is not just how good a leader you are but how many leaders you develop.
